

LIFE HEALTH  
FOOD PRODUCTS

# Life Health Food products

We offer a wide range of functional ingredients, commodities, additives and customized blends but most importantly experience and information regarding product application and processing. Our goal is to help you optimize your industrial developments and implementation of all kinds of products in the food & beverages markets.

Disproquima counts with great professionals with extensive experience in the Life Science Industry. We are not only a sales company, we can offer you deep knowledge in Regulatory, Supply Chain and Technical Advice, likewise all our Sales Professionals are food technologists, biologist, chemists, etc. but most importantly you can rely on all our team for your projects as our goal is to succeed together.
